THE HOW

Each year, we venture out into Africa with a select crew of like-minded souls.

These self-drive adventures are led and organized by Carla Geyser, the founder of the Blue Sky Society Trust, who has led many successful trips into Africa.

We always take a well-rounded team for each expedition, people with a variety of skills and interests. If you are an enthusiastic adventurer who's passionate about conservation and who takes life as it comes, then this is for you!

Remember, seats are limited so don't wait too long!

WHAT CAN YOU EXPECT?

These expeditions often involve driving long distances over bumpy dusty roads, camping in remote areas, at times being without cell service for days, and, of course, loads of giving back through hands-on charity work. This is not a tour but rather a team expedition, and every member of the team is expected to pitch in with cooking, cleaning, camp set up where necessary, etc.

It is the experience of a lifetime, and we would love to have exploratory, fun-filled, compassionate spirits along for the ride.

Are you up for the challenge?

This is a LIMITED entry journey, which means only a few people get to experience this unforgettable never-to-be-repeated experience. We only want the deserving to join us; legends who will be remembered for their awesomeness, and ability to go with whatever comes their way, and above all, those able to create smiles and good vibes out of thin air!

Africa also teaches you how to take on situations with a bit of a sense of humor!
